Proposals for the Re-organisation of the Estt. of the Govt. Press, Bangalore. —

From

The Supdt. Govt. Printing, Bangalore

No. 1932/Encl Dated 21/23/12/1925 Received 24.12.25

Diary No. 8097/550	Enclos. 1.	Spare Copies.	Serial No. 1,

BRIEF ABSTRACT OF LETTER.

States that the Re-organisation of the Estt. of the Press is absolutely necessary to remove certain anomalies that are impairing the smooth efficient working of the Press, and to adapt it to the requirements of the new conditions that have arisen since the previous re-organisation effected in 1919, and forwards proposals showing how the same may now be effected at a minimum extra cost.

NOTES AND ORDERS.

Secd. 1) The proposition statements refd. to in the last para of the Supdt's letter may be awaited.

2) Yes, may

NOTES—First Sheet. ASM 24/12/25

General and Revenue Secretariat | P. & T. File No. 34 of 1925.

Serial No 2.

For the Comptroller. No. Book 1375-D/19.1.26.

Forwards, duly verified, the prescribed statement relating to the revision of the Establishment of the Govt. Press. Bangalore

3) The last reorganisation & revision of the establishment of the Govt Printing Press was effected in July 1919 - vide G.O. No G. 2145-6/P. & S. 56-18-7 dt the 26.7.1919. The recurring annual extra cost then involved was Rs 7599/-.

4) After verifying the present prescribed statement sent up by the Superintendent Govt Press, the next extra cost is estimated by the Comptroller at Rs 1041/- per annum to the permanent recurring expenditure & so far as the extra cost during the current year (from January to end June) is concerned the Superintendent proposes to suggest reappropriation from the Press Budget if it is not to be met out of the "general savings of the Dept".

5) The 'new conditions' & 'anomalies' which the Superintendent refers to in para 2 of his letter of 21st Dec 1925 as necessitating the revision of the scale of pay in the Press Estt. are now for consideration and orders.

NOTE—Contn. Sheet

6) The fact that some literate men are made to draw ~~a mes~~ the pay attached to the post of a menial and that illiterate men actually in menial employ are made to draw the salaries of posts scheduled Superior, as a result of appointments made in past years, does not seem to point to any flaw or fault in the scale of the present sanctioned Establishment so as to justify now a revision of the Scale of the Press Estt.

7) If it is not improper, the Superintendent Govt Press, may perhaps be asked to adjust & Equate the men on their merits to the post concerned Consistent with the Sanctioned Scale and report to Govt if that cannot ensure Contended work on their part.

8) This would seem to obviate the need to sanction the proposed annual Extra recurring cost of Rs 1041/- per annum.

9) Submitted for orders

25/1/26. 2971

Hon. R. Lyons will please put up audit notes if any of the E A Section & also of the Scale in Madras Govt Press

To be discussed with Mr Pattaya Mw

(6) The Superintendent Govt Printing has submitted proposals for reorganisation of the establishment of the Press. The proposals Statements have been received verified by the Comptroller.

(7) The main idea of the reorganisation is stated to be to reduce the disparity of emoluments between the highest appts and those much below them and provide at the same time an easy flowing promotion in each section of the Press so that there will be no scramble for place in one section by persons employed in other sections.

(4) The total number of hands will be the same as now i.e. 734. There will be an increase of 3 men in the Office section. It is proposed to get a mono-type machine and one man is added to the establishment for this machine. Against the four men proposed to be added in these two sections there is a reduction by four men in the type-casting section.

(5) The extra cost nominally will be Rs 86 and odd each month. Of this however some portion will be due to employing permanent men where now

Serial No.

temporary establishments being employed
The next extra cost is Rs 45 and odd
per month. Of this Rs 30/- is due
to the employment of a new man
for a monotype machine which
it is proposed to get for the Press.
The next extra cost due to revision
of grades is therefore Rs 15/- per

(5) The Supdt has proposed separately
that provision may be made for
the purchase of a monotype
machine. If this is so, there will
have to be a new to work it. If
it is not sanctioned there will be
a reduction of Rs 30/- per in the
expd on establishment in the
revised scale.

15) The extra expd is not much.
The pay proposed is more smoothly
graded from appointment to
appointment than in the old scale
The proposals may perhaps be
approved.

16) I have discussed the details with
the Supdt Govt Press. He said that
it might be possible to meet the extra
expd by some adjustment from the
normal grant for the Press budget

Final Note by the First Member of Council.

Subject:—

Revision of the establishment of the Government Press, Bangalore.

28) In his letter No.1932 dated 21st December 1925, the Superintendent, Government Printing, has represented to Government that the prevailing scales of pay in the Press are not conducive to each branch being self-contained and that in consequence the employees have come to look for promotion in branches to which they are not fitted. Moreover, it is reported that owing to there not being suitable scope for promotion of the officials in each branch, many officials have been appointed to and are drawing the pay of, posts the duties of which are being actually performed by others and that there are even - - instances of persons who are performing menial duties but are designated as clerks and readers and allowed to draw pay as such. It is stated that these defects have resulted in a general lack of efficiency and a growth of discontent among the employees. With a view to remove these anomalies and make the different branches of the establishment self-contained as far as possible, so as to provide for an easy flow of promotion for the men employed in each branch, the Superintendent has proposed the reorganisation of the establishment on the lines - mentioned in the statements attached to his letter. According to his proposals. the total staff will be kept at its present strength viz., 134 hands; but the needs of each department will be met by a suitable redistribution of the staff among the several branches. The total extra cost entailed will be Rs.86-12-0 p.m. This includes a temporary establishment costing Rs.41-10-8 p.m. proposed to be made permanent, and if this is excluded. the net extra cost involved will be only Rs.45-1-4 p.m. or Rs.541-0-0 per annum.

29 On the file coming up before me, I noted that it was -

(9)

necessary that the condition of affairs mentioned in paras 2 and 3 of the Superintendent's letter should be put a stop to at once and that no one should be appointed to and made to draw the pay of any post the duties of which are not actually performed by him and that the proposals of the Superintendent which were well-considered might be sanctioned.

30) The Dewan to whom the papers were submitted observed that the appointment of a mono-type operator on Rs.30-2-40 p.m. proposed by the Superintendent might be left out for the present and considered at the final stage of the Budget and that the remaining proposals entailing an additional cost of only about Rs.8 p.m. or Rs.96 per annum might be sanctioned. The Second Member has agreed to the revision proposed by the Superintendent with the reservation suggested by the Dewan.

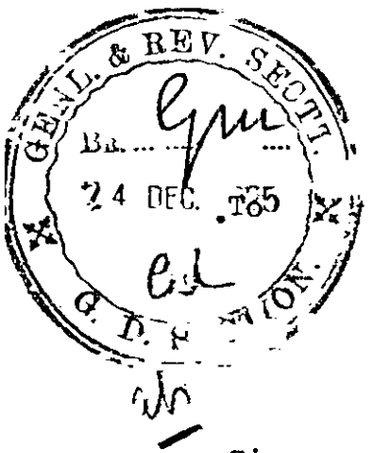
No: 1932.
Enc. One ~~revision~~ statement.

Office of the Superintendent,
Government Printing in Mysore,
Bangalore, dated the 21st December 1925.

PRS 34-25-1

From



B. PUTTAIYA, Esq., B.A.,
Superintendent, Government Printing,
BANGALORE.

P. G. D'SOUZA, Esq., B.A., B.L.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

Sir,

I have the honour to submit the following proposals for the reorganisation of the establishment of the Government Press on a limited scale with a view to adapt it to the requirements of the new conditions that have arisen since the previous reorganisation that was effected in 1919, and also to remove certain anamolies that are impairing the smooth and efficient working of the Press. I may make it clear at the outset that the proposals do not involve any radical change in the existing scale nor do they involve any unduly large extra cost. On the other hand, certain vacancies that have recently occurred in the Press due to retirements have been kept vacant so that the salaries of those vacant posts may be available to meet the extra cost involved and to keep it down to the barest minimum possible. For this purpose, such high appointments as Head Foreman (90), Draughtsman (82), Deputy Accountant (40) and Record-keeper (35) have not been permanently filled up and all the money available of all these appointments is being utilised for proposing the increased establishment that has become absolutely necessary to cope with the increasing work in all the branches of the Press.

(9

This reorganisation is urgently needed because, owing to the scales of pay of each branch of the Press not being sufficiently self-contained, the officials of each branch cannot look forward contentedly for promotion in their own branch but set their hearts on the higher pay available in other branches in which they are not qualified to work. For example, officials of ministerial branches like those of the office and despatching branches look forward for promotion in the Proof Branch and even in the working branches like the composing, binding or machine branches and vice versa. In fact, owing to promotions that have taken place in the past, there are very few officials who are working according to their designations, i. e., actually doing the Job whose scheduled pay they are really drawing. There are instances of peons who have no pretence to education or training bearing the designation of clerks and readers and drawing the pay of those posts while actually doing menial work. There are literate men and men qualified by training and aptitude who are doing superior work like that of the clerk or the proof reader but are drawing a menial's pay of Rs. 11/- or Rs. 12/- and bear a menial's designation. Employees have acquired a habit of claiming, as a matter of right, promotion on the score of seniority to a post for which they are thoroughly unsuited and have invariably been securing it. An official thinks that if a vacancy occurs in the machine branch he is entitled to be appointed for the post though he does not know any machine work and has all along worked in the office as a clerk. Similarly, proof readers aspire for promotion as accountants, or stationery clerks or composing Foremen on the score of seniority, irrespective of their fitness for the work of the appointment whose pay they want to secure. The result of this undesirable state of affairs has been a general lack of efficiency of the employees and an undesirable growth

(20

of discontent and grumbling among them all, tending to inertia, want of enthusiasm to learn and improve and a general indifference and apathy for work.

3) I have been observing the working of the existing system for the past two and a half years and have been daily impressed with the urgent necessity of doing away with this state of affairs completely and of replacing it by a system of well-ordered scales of pay in each branch so that each offcial may look ~~forward~~ for promotion in his own branch without being tempted to cast a hungry and longing look at a fatter berth in another branch for which he is thoroughly unsuited. My object is to make the scales of pay in each branch nearly as analogous as possible so that no desire is created in any official to try and jump to another branch on account of its fatter pay but reconcile him to his own branch so that he may learn the work of his branch well and become efficient and get promoted to the topmost pay in his own branch. In order to achieve this object, any little extra cost that may have to be incurred is worth incurring but, as submitted above, I have taken all possible steps to minimise this extra expense by keeping open many vacancies without filling them up permanently.

4) Having thus indicated the necessity for submitting these proposals, I beg to point out the changes proposed by me branch by branch.

Office Branch. - The Head Clerk's pay is Rs. 100/- while that of the next official who is either the Store-keeper or Head Accountant, is Rs. 55/-. There is thus a wide gap of Rs. 45/- between the pay of the Head Accountant or the Store-keeper and that of the Head Clerk. It is too big

(21

a jump for the Store-keeper or the Head Accountant to the Head Clerk's place which will create heart-burning in other branches. And then, the Head Clerk when once he reaches Rs. 100/- will have nothing to look forward to. I therefore propose to make the pay of the Head Clerk a progressive one of Rs. 75-5-100 and to increase the pay of the Store-keeper to Rs. 60/- so that the disparity between his proposed pay of Rs. 60/- and that of the proposed pay of the Head Clerk, viz., Rs. 75/- may not be great in case he is appointed Head Clerk. My reason for proposing an increase of pay to the Store-keeper is that as he has to furnish a security which is usually deducted from his pay, it is necessary that his pay should be high enough to admit of this deduction without reducing the wherewithal for his maintenance. Moreover, the Store-keeper's place is a highly responsible one and the man who discharges it satisfactorily renders himself thoroughly reliable and quite fit to hold the responsible Head Clerk's post, provided he has also the requisite educational qualification.

As the work of valuing piecework vouchers has enormously increased, we require three accountants to do the work satisfactorily. Hence two existing appointments of Record Keeper on Rs. 35/- and Attender on Rs. 13/- have been proposed to be converted into two Assistant Compositor's accountants on Rs. 30/- and Rs. 20/- respectively, the Record Keeper's post being reduced to one of Rs. 25/- by raising the Shroff's ~~an~~ place on Rs. 20/- to one of Rs. 25/-. It is found necessary to set apart a clerk to registering the works received in the Press and to put Work Dockets on all jobs which number not less than 4,000 in a year. A works clerk on 20/- is therefore provided. The work in the valuation section has also very much increased as shown by actual experience during the past two years and considering the volume of work to be done,

22

I find it is absolutely necessary to give an additional hand on Rs. 20/- to this section. The Store-keeper is overworked on account of the large volume of accounts and clerical work he has to do for writing up the ledgers, working up of percentages for depreciation, preparing inventories and similar work. He requires an accountant to assist him or his account work may be transferred to the office branch as proposed by the Controller of Printing with the Government of India. Hence a new stores accountant on Rs. 20/- has been provided. The other changes made, viz., the reduction of the pay of the Typist from Rs. 35/- to Rs. 20/-, the increase of pay of the Pressmen's Accountant and the Valuation Clerk from Rs. 30/- to Rs. 35/- and that of the Assistant Gazette Clerk and the Assistant Valuation Clerk from Rs. 25/- to Rs. 30/- are only to remove the existing anomolies.

In the Office Branch, therefore, the pay of the Head Clerk is proposed to be made progressive, the pay of the Store-keeper to be raised to Rs. 60/-, the pay of the Record-Keeper to be reduced to Rs. 30/-, the appointment being converted into that of Compositor's Accountant, the pay of the Shroff and the Attender to be raised to Rs. 25/- and Rs. 20/- respectively, the appointments being converted into those of Record Keeper and Compositors' Accountant respectively, certain minor changes to be made in the pay of a few appointments to remove anamolies and finally three new posts of a Works Clerk, a Stores Accountant and a Valuation Accountant to be created on Rs. 20/- each. In this arrangement, there will be 3 compositors' Accountants, 3 Valuation accountants and one works' Clerk and one Stores accountant, all of whom are found by experience, to be absolutely necessary to carry on the increased work.

(23

Proof Branch. In this branch, the pay of the Head Examiner which is now Rs. 100/- is proposed to be made progressive starting on Rs. 75/- and rising to Rs. 100/- by annual increments of Rs. 5/-, the designation being changed to Chief Examiner. As there are two examinerships on Rs. 55/- each and as there is a fairly big gap between Rs. 55/- and Rs. 75/- it is proposed to raise one of the Examiners' posts on Rs. 55/- to Rs. 60/- changing the designation to Deputy Examiner. The pays proposed for these two appointments are analogous to those proposed in the office branch for the head clerk's and store-keepers' appointments. It is also proposed to replace an examiner's appointment on Rs. 40/- by one on Rs. 45/- so that the existing anamoly of a Proof Examiner bearing the designation of Composing Foreman, although working in the Proof Branch, may be removed. By this arrangement the gradation of pay of the Chief Examiner downwards will become even and properly graduated as 75, 60, 55, 50, 45, etc. No other change is proposed in this Branch. I beg further to propose that in order to secure efficiency in this branch, promotions may be made to depend chiefly on the passing of the Proof-reading examination, with very rare exceptions, if any.

Despatching Branch. In this Branch the work has much increased owing to the arrangements that have been made for the stocking of standard forms and the despatch of indent forms. Issue and Receipt registers of all stock forms have been maintained and a separate set of clerks has been deputed to attend to prompt despatch of all registers and forms. The work of the Branch has been properly distributed so as to carry it on in a systematic and efficient manner, preventing congestion and ensuring regularity in the despatch of work. An intelligent and responsible official to be in charge of the branch is therefore found to be absolutely necessary and consequently the pay of the Head

Despatcher has been proposed to be raised from Rs. 25/- to Rs. 30/-. The increases proposed in the pay of the other officials of the Branch are due to those officials having received permanent promotions in the scales provided in the Proof and other branches where they are not fit to work. They are only qualified to work in the Despatching branch and consequently their pay has perforce to be raised in order to do away with the anamoly already perpetrated and to keep them in the Branch for which they are fit.

Composing Branch. It is not necessary to have a Head Foreman on Rs. 90/- in this branch and as the present Head Foreman is retiring, the post may be abolished, and in its place a Foreman's post on a progressive pay rising from Rs. 50/- to Rs. 60/- by annual increments of Rs. 2/- may be created. As an official borne in this branch on Rs. 45/- but working as Proof Examiner has been provided for in the Proof Branch, it has been possible to reduce the pay of the other appointments in this branch without affecting the pay of any of the present incumbents and the appointments on Rs. 45, 40, 35 and 35/- will accordingly be each reduced by Rs. 5/- except in the first case where it is reduced by Rs. 10/- and replaced by posts on Rs. 40, 40, 35, 30 and 30/- respectively.

Printing Branch. The pay of the Machine Foreman is Rs. 80/- at present. I propose to make this a progressive pay of Rs. 50-6-80. The designation of Machine Clerk is proposed to be altered into Machine Reviser and the work of revising machine proofs entrusted to him. The pay of the appointment is proposed to be raised from Rs. 10/- to Rs. 25/- only to remove an existing anamoly. The Roller Caster has nothing to look forward to in any of the other branches of the Press. As it is, he is constantly grumbling

(28

and wants to get allowances of acting officials in other branches, which aspiration, it is not desirable to encourage. I therefore propose that his pay may be made a progressive one of Rs. 20-1-25. One of the Galley Pressmen's places has been proposed to be converted into a Machine Clerk's place on Rs. 15/- as it has been found necessary to depute a clerk to maintain the several registers of the Machine Branch and to enter the accounts of the Machinemen and thus relieve the machine Foreman of all clerical work and enable him to supervise the technical work better.

Binding Branch. In the Binding Branch, the Binding Foreman's pay is proposed to be made a progressive one of Rs. 50-5-75 as he has nothing to look forward to in his own branch and as it is necessary to prevent him from aspiring for promotion in other branches. As the present Foreman is drawing Rs. 55/- for the past three years, he may be given 3 increments and started on Rs. 65/-. The pay of the Ware-House Clerk is proposed to be raised from Rs. 20/- to Rs. 25/- only to remove the existing anamoly.

Litho Branch. In the Litho Branch, it is not necessary to have a highly paid draughtsman drawing Rs. 82/-. It is therefore proposed to fix his pay at Rs. 30/- and make it progressive rising to Rs. 35/- by annual increments of Re: 1/-. This appointment will be given to a man who is both a draughtsman and a litho printer. The designation of Litho Pressman may be changed into Litho Printer and Embosser. He will do both embossing and Printing. The ballers of this Branch are expected to know embossing and printing in addition to doing the manual labour of turning the Presses. Hence slight increases for the three ballers are proposed.

Type-casting Branch. In this branch, the pay of the

(26

Foreman which is Rs. 30/- may be made progressive, rising to Rs. 35/- by annual increments of Re: 1/-. As the present man is drawing Rs. 30/- for the past four years, he may be given two increments and started on Rs. 32/-. The pay of the Stereo-typer may also be made progressive as the work is different from that of type casting. The present pay being Rs. 25/- it may be raised to Rs. 30/- by annual increments of Re: 1/-. Provision is made for 2 more casters with slight increases of pay to two of them as they are actually drawing the proposed pay in some other branch where they are not qualified to work. In view of our installing one or two machines for typecasting and discarding hand machines, the other four boys of the Branch are proposed to be abolished. The boys will be provided in the Pi Branch.

Monotype Branch. In the monotype branch, the present scale was fixed when there were two keyboards and two casting machines. As another keyboard was added subsequently, it is necessary to have three operators drawing the same pay as there is no difference in the nature of their work. As each workman in this branch cannot look forward to any promotion in any other branch, it is necessary to make the pay progressive. Hence I propose to fix the pay of the operators at Rs. 30-2-40 and that of the casters at Rs. 25-2-35, in view of the intelligent nature of the work to be done by these men.

Miscellaneous Branch. In this branch, the pay of the two carpenters is proposed to be reduced by Rs. 5/- and Rs. 2/- respectively.

Menial Branch. In this Branch, a man who is only fit for a menial's post is drawing Rs. 20/- bearing the designation of Ware-house clerk and another is drawing Rs. 17/- with the designation of Proof Reader. As it is necessary to do away.

(29)

with this anamoly, it is proposed to give the first man his legitimate place in the menial branch and designate him as Jamadar on Rs. 17/- with a personal allowance of Rs. 3/- which will cease on his retirement. As the existing Daffadar's place will thus get converted into a Jamadar's place one of the peons' places on Rs. 13/- will have to be converted into a Daffadar's place on Rs. 15/- with a personal allowance of Rs. 2/- and given to the second man. The personal allowance will cease on the retirement of the present incumbent. There is no change in the rest of the appointments except a small increase of Re: 1/- to one of the peons to remove the anamoly of his working in a branch for which he is not fit.

My proposals as outlined above, may be summarised as follows:--

(1) The institution of progressive pay for the heads of the various branches of the Press viz., Office, Proof, Composing, Machine and Binding Departments, with a view to make the branches self-contained and to prevent men of one branch from aspiring to promotions in another branch for which they are not fit.

(2) The increase of pay of the Store-keeper and the Deputy Examiner by Rs. 5/- so as to bring about a better gradation of pay in the respective branches and to make the pay compatible with the responsibility of the appointments.

(3) The institution of progressive pay for the appointments of Draughtsman, Typecaster, stereotyper, Roller caster, monotype operators and casters with a view to prevent stagnation, as the branches concerned are small and the men working there have no chance of promotion and as it is undesirable to shift them to other branches and thus lose the behefit of their training and equipment.

(4) A small increase of Rs. 5/- to the Head Despatcher in view of the increased responsibility and work devolving on him.

(5) The ~~strength~~ Strengthening of the office branch by three officials, viz., Works Clerk, a Stores Accountant and a Valuation Accountant to cope with the increased work of the branch.

(6) The addition of an operator for the monotype branch in view of the keyboard that has been added, for which no provision exists in the scale.

(7). Small increases to the ballers of the Litho Branch in view of the technical skill expected from them.

(8) The abolition of the Head Foreman's post and the Draughtsman's post and the creation of posts on smaller pay in their place.

(9) The alteration of scale of a few appointments in the several branches so as to remove existing anamolies of officials bearing one designation and doing an entirely different work.

(10) The reduction of the Typecasting branch by four boys.

As a result of these proposals, four new appointments have been created, three in the office branch and one in the monotype branch. All these are absolutely necessary in view of the increased work in the office branch and the additional equipment of the monotype branch, as already stated. In spite of this addition, the total strength of the establishment will remain unchanged as hitherto.

As regards the financial effect of these proposals, an extra cost of only Rs. 45-1-8 per mensem or Rs. 541-4-0 per annum ~~is~~ is involved as per abstract statement attached, which includes the pay of a third monotype operator who has to be appointed in any case, consequent on the addition of a new keyboard. Thus, the net extra cost on account of the revision of the whole establishment after making allowance for this new appointment, will only be a nominal sum of about Rs. 7/-. I am sure that the revision proposed by me involving, as it does, such small cost, will tend to remove the existing anamolies and promote efficiency and contentment in all branches of the Press.

I therefore respectfully beg that Government may be pleased to sanction the revision at a very early date and to order that it may be given effect to from 1st January 1926. The connected proposition statements have been submitted through the Comptroller for transmission to Government after kind verification.

I have the honour to be,
Sir,
Your most obedient servant,

Superintendent,
Government Printing.

To

G.D'Souza Esq., B.A., B.L.,
Chief Secretary to the Government of Mysore,
Bangalore.

Sir,

I have the honour to forward herewith duly verified the proposition statement in duplicate relating to the revision of the establishment of the Government Press, Bangalore.

2. The net extra cost involved by the proposition is an addition of R..86¾ per mensem or R.1041/- per annum to the permanent recurring expenditure of the state, taking into account the personal allowances of R..3 and R..2 per mensem proposed to the Jamadar and Daffedar of the Press.

3. The extra cost during the current year is proposed by the Superintendent to be met out of the General savings or by reappropriation of funds of his department in his letter No.2137 dated 9th January 1926 herein enclosed in original.

I have the honor to be,
Sir,
Your most obedient servant,

T Satyaraj Chetty

FROM

B. PUTTAIYA, ESQ., B.A.,
SUPERINTENDENT, GOVERNMENT PRINTING,
BANGALORE.

TO

T. Satyaraj Chetty, Esq., B.A.,
Comptroller to the Government of Mysore,
BANGALORE.

SIR,

In continuation of this office letter No: 1943, dated the 23rd December 1926, forwarding for verification and transmission to Government the proposition statement of the Central Press, I have the honour to state that the extra cost that will be involved ~~of~~ the revision is given effect to from 1st January 1926, as proposed to Government will have to be met from the General savings of this department. But if this is not possible, the ~~same~~ source from which the extra cost will have to be met will be pointed out and the necessary reappropriation statement submitted in due course as soon as sanction is accorded by Government for the revision.

I request therefore that the statements may kindly be verified and transmitted to Government early.

I have the honour to be,
Sir,
Your most obedient servant,

Superintendent.

Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE DEPARTMENTS.

G. O. No. G. 9077-8—P. &. S. 34-25-3, dated 12th May 1926.

Revision.

Sanctioning the —— of the Establishment of the Government Central Press.

READ—

Government Order No. G. 2145-6—P. & S. 54-18-7, dated 16th July 1919, passing orders on the revision of the establishment of the Government Press.

2. Government Order No. E. 1397-8—P. & S. 3-22-3, dated 23rd August 1922, sanctioning the revision of the staff of Foremen in the Government Press.

3. Letter No. 1932, dated 21st December 1925, from the Superintendent, Government Printing, submitting proposals for the reorganisation of the establishment of the Government Central Press, in order to make the different branches self contained.

4. Letter No. Bks. 1875, dated 19th January 1926, from the Comptroller to Government, forwarding the proposition statement duly verified and stating that the extra cost involved is Rs. 1,041 per annum.

ORDER NO. G. 9077-8—P. & S. 34-25-3, DATED 12TH MAY 1926.

The proposals of the Superintendent which are calculated to make each Branch separate and self-contained as far as possible and to improve the efficiency in the working of the Press entail an extra cost of Rs. 86-12-0 per mensem inclusive of the temporary establishment costing Rs. 41-10-8 per mensem proposed to be made permanent. The net extra cost is therefore Rs. 45-1-4 per mensem. This includes the pay of one additional Monotype Operator on Rs. 30-2-40 per mensem proposed to be newly entertained.

Government reserve for later consideration the question of adding a Monotype Operator to the staff and are pleased to sanction, with effect from 1st January 1926, the other proposals of the Superintendent which, exclusive of the cost of the temporary establishment which is made permanent, result in a net extra cost of about Rs. 8 per mensem. The extra cost under the permanent staff is Rs. 49-4-0 per mensem.

A statement showing the existing scale and the revised scale as now sanctioned is appended to this order. The extra cost during the current year will be met out of the general savings in the Press Budget.

P. G. D'SOUZA,
Chief Secretary to Government.

To—The Comptroller to Government, through the Financial Secretariat.
The Superintendent, Government Printing.

Exd.—P. S. R. N.

Signed by Mr. M.V.J

Sir,

In continuation of Govt. order No. G. 9077-8/P+S 34-25-3, G, dt. 5-5-25 concerning the revision of the cost of the Govt. Central Press & reserving for later consideration the question of ~~providing~~ adding an extra Monotype operator to the staff, I am directed to intimate that it is not possible ~~to~~ to sanction an extra Monotype Operator ~~as there is no need for extra extra~~ during the year 1925-27.
